If you haven't responded yet and have info to provide, please do so by the end of the week. Thanks so much.

Subject: SSN Inventory

As promised at yesterday's Data Liaison meeting, attached is the most recent version of the MDPH SSN Inventory. We are researching possible SSN encryption approaches. To do so, we ask that you please add the following information:

- 1) Any missing SSNs that you might hold (paper or electronic)
- 2) The best contact person for any file or item on the inventory that belongs to you
- 3) The name of the system operating the file, e.g., COBOL, Oracle, etc.
- 4) The name of the application, e.g., MAVEN

Dollars to donuts you won't be able to fit this information in the small boxes, so feel free to write this in an email and send it to me.

It would be great if I could have this information by June 15.

Thanks so much, as always, for your help.
